Luciano Lamaita

Chemical engineer and physics and chemistry teacher

Professional profile

Chemical engineer with experience in laboratory coordination, quality control, water analysis, and research and development. Background in physicochemical testing, production support, ISO/IEC 17025 and ISO 9001 management systems, and industrial and environmental oversight. Combines professional practice with teaching, citizen-led environmental monitoring, and the development of data and geographic information tools.

Professional experience

Dirección de Vialidad de la Provincia de Buenos Aires

Engineer, Technical Division, Zone VI · Jan. 2025 – present

- Plans and designs road maintenance and reconstruction works; analyses traffic surveys and updates technical information on soils, costs and traffic.
- Develops SIG Vial PBA for georeferenced field surveys and road information management. Authored the project awarded First Prize in the 41st Road Topics Competition, 2026.

Comisión de Investigaciones Científicas de la Provincia de Buenos Aires

Presidency advisory staff · Aug. 2022 – Dec. 2024

- Advised on technology transfer and innovation; monitored technological services, agreements and special programmes. Served as CIC technical representative at CITEC in coordination with INTI.

Ministerio de Ambiente de la Provincia de Buenos Aires

Technical Adviser, Undersecretariat for Environmental Control and Inspection · Jan. 2020 – Jul. 2022

- Advised on industrial inspections, effluents, atmospheric emissions and waste management; reviewed and improved technical and administrative processes and coordinated work across departments and agencies.

YPF S.A.

La Plata Refinery · Lubricants and Specialties Industrial Complex · Ensenada

Technical Assistance and Asphalt Development Laboratory Coordinator · Sep. 2016 – Sep. 2019

- Coordinated the laboratory and technical staff; monitored ISO/IEC 17025 and ISO 9001 management systems and developed and optimised asphalt products while providing technical support to production.
- Prepared samples and reference materials for interlaboratory comparisons, worked on equipment installation and calibration, and prepared technical specifications for equipment and services.

Derivatives/Carbon Development and Technical Assistance Laboratory Technician · Feb. 2014 – Aug. 2016

- Prepared samples and performed physicochemical tests on petroleum coke; inspected sampling services at the Copetro plant.

Areas of expertise

Laboratories and quality control
Water analysis
Research and development
Industrial processes
Environmental management
ISO/IEC 17025 · ISO 9001

Tools

Data and mapping
QGIS · Python · R
Excel · Leaflet

Process simulation
HYSYS · SIMSCI PRO/II

Management and education
SAP · Bizagi · Moodle

Languages

Spanish · Native
English · Training through advanced level, CAI/YPF (2017–2018).

Luciano Lamaita

Professional résumé

Earlier environmental control and research experience

ACUMAR · Industrial inspection and waste management · Jul. 2010 – Jan. 2014. Inspected industrial processes and facilities, evaluated industrial conversion programmes and waste technologies, and served as East Middle Sub-Basin liaison from April 2013.

ECISA S.R.L. · Chemical Technician · Mar. – Jun. 2010. Sampled industrial effluents and performed water quality control in services associated with AySA and ACUMAR.

ECASS Laboratory, UTN La Plata · Technical research scholarship · May 2008 – Feb. 2010. Analysed drinking water and groundwater, conducted environmental sampling, and improved arsenic determination methods.

LADIPREVET S.A. · Chemical Technician · Jul. 2004 – Feb. 2008. Performed industrial microbiology tasks.

CINDECA, UNLP/CONICET · Research Intern · Mar. 2002 – Jul. 2004. Developed, characterised and modelled catalysts for reducing volatile organic compound emissions.

Teaching and educational projects

Colegio Secundario Madre Teresa · Introductory Physics, Year 4 · Since 2023. EEST N.º 1 Gral. Savio · Industrial Laboratory, Year 7 of the Chemical Technician programme · Since 2018. UBA XXI / CURS · Chemistry Tutor · 2019 – 2022. Instituto Niño Jesús · Chemistry subjects · 2019.

Aire Escolar builds on Ciencia Ciudadana Ambiental: Escuelas de Saladillo en Acción por un Aire Limpio. The initiative aims to integrate low-cost sensors, student participation and data analysis in urban and rural educational institutions across Buenos Aires Province.

Develops simulation and teaching tools: Seres Térmicos, EUREKA AI and physics learning materials. Translates and adapts Jeff Bigler's physics notes with permission, attribution and the CC BY-NC-SA 4.0 licence.

Publications

Co-author of three catalysis articles published in 2005 in Catalysis Today and Applied Catalysis B: Environmental.

Education

Profesor en Disciplinas Industriales
Teacher-training qualification, Universidad Tecnológica Nacional, Facultad Regional Avellaneda · 2017 – 2018. Completed.

Ingeniero Químico
Chemical Engineering degree, Universidad Tecnológica Nacional, Facultad Regional La Plata · 2006 – 2016. Completed.

Chemistry studies
Universidad Nacional de La Plata · 2000 – 2005. Partial university studies; no degree awarded.

Training

IRAM · Internal auditing and laboratory quality management, ISO/IEC 17025:2017 · 2018. QGIS and geoprocessing · 2026. Python for Open Government · 2025.

Networks and involvement

OpenAQ Community Ambassador (2023); member of the ECSA Air Quality Working Group. Participates in CanAirIO, AireCiudadano and Sensor.Community.
